

MOBILI COME MANO

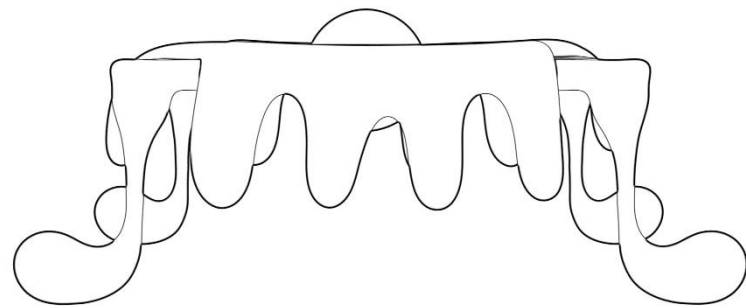

Deng Enhao

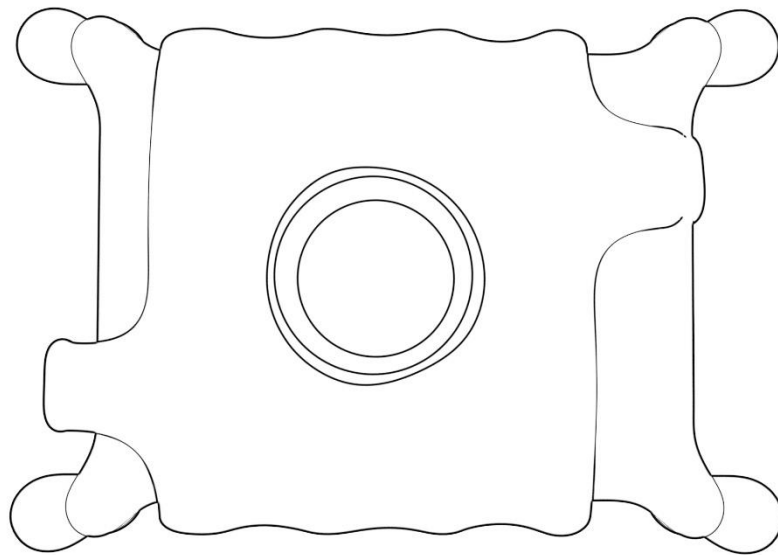

Deng Enhao è entrato in contatto con la comunità degli orfani attraverso un'esperienza casuale. Sotto il loro guscio felice, questi bambini orfani nascondono spesso un vuoto interiore. I bambini desiderano una famiglia, l'amore amorevole, una madre che li abbracci. Hanno mani fisiche, ma nessun amore da toccare. Alcuni bambini desiderano un letto proprio, altri il loro tavolino, altri un grande divano, altri un frigorifero pieno di merendine. Così l'artista Deng Enhao ha creato le seguenti quattro opere basate sui loro desideri.
